meet the medics!

Dear guests of the ball, esteemed colleagues!

It is a great pleasure for us to welcome you for the 72nd time to the Vienna Medical Doctors' Ball. In 2024, the Hofburg will once again be the venue for: **"Meet the Medics"** - let's meet each other and encounter physicians and achievements of medical history!

A "special juice"

This year's ball is dedicated to an important Austrian pioneer of medicine: **Karl Landsteiner**. The Nobel Prize winner is regarded as the "father of immunohematology" for his groundbreaking discoveries in the field of blood group serology, which laid the foundation for modern transfusion medicine and saved millions of lives.

Viennese blood

The opening of the ball, with pieces from the Strauss operetta "Wiener Blut" ("Viennese Blood"), is also dedicated to the "special juice". The ball's donation, created by **young artists from the University of Applied Arts**, also reflects the inspiration of Karl Landsteiner's work - let yourself be surprised.

Doctors' Ball goes Charity

The charity idea is especially important to us: Every year, the entire net proceeds of the ball go to a

charitable institution - this year to the project:
"StoP" - "City Neighborhoods without Partner Violence" of the Association of Autonomous Austrian Women's Shelters.

Charity raffle

A highlight of the evening is therefore also our charity raffle **"Who's that girl"**: For the second time, we are presenting the portrait of an important female doctor from the early 20th century in the large medallion above the stage in the Ceremonial Hall. This year, we commemorate an outstanding Austrian social physician. But who is she? Take a guess and win an attractive main prize! The raffle tickets are available for EUR 5,- each.

Casino for a good cause

Another highlight of this doctors' ball: the casino for a good cause. Here you can **win great prizes**. The net proceeds will go directly to our donation project "StoP" this year.

Experience an unforgettable night full of elegance, dance and encounters - **Meet the Medics!**

We wish you a glittering ball night!
